EDUCATION

California State University, Fullerton   **Aug 2021 - May 2023**

M.S. Software Engineering

California State University, Monterey Bay   **May 2020**

B.S. Computer Science   **GPA:** 3.85

Honors / Awards: Dean's List, Magna Cum Laude

PROJECTS

Translation React Chrome Extension   **March 2021**

- Built a Chrome extension for quickly looking up words in a Japanese dictionary
- Improved convenience compared to similar extensions with on-page display

Drawing React Web App   **Jan 2021 - Feb 2021**

- Created a simple and intuitive SPA allowing users to manipulate and draw 3D forms
- Leveraged JavaScript libraries for 3D rendering and sketching, adding more functionality on top of them

AWS Ticket Sales Framework   **Feb 2020 - May 2020**

- Established the Python backend of the company's open-source web ticket sales framework
- Integrated a serverless microservices architecture with AWS Lambda and API Gateway, reducing financial burden

Resume Review Web App   **Nov 2019 - Dec 2019**

- Developed the Java Spring backend for a resume review web app
- Engineered REST API backed by PostgreSQL, tested with Swagger 2

Monterey Bay Twitter Bot   **October 2019**

- Coordinated a team of five competing in the Startup Monterey Bay 2019 Hackathon
- Incorporated four different API calls using Python to gather data on local conditions

---
